PROFESSIONAL SUMMARY

Computer Science (AI & Data Science) graduate seeking a Java Full Stack Developer / Software Developer role. Hands-on experience building full-stack web modules with Java, Spring Boot, MySQL, HTML5, CSS3 and JavaScript, and connecting front-end interfaces to RESTful APIs. Skilled in responsive, cross-browser UI development, debugging, and version control with Git/GitHub. Solid foundation in OOP, data structures and DBMS.

TECHNICAL SKILLS

Languages: Java, JavaScript (ES6+, DOM, JSON), Python, SQL

Backend: Spring Boot, RESTful API Integration, Node.js

Frontend: HTML5, CSS3, Flexbox, CSS Grid, ReactJS, Responsive Design, Cross-Browser Compatibility

Databases: MySQL, MongoDB

Tools & Platforms: Git, GitHub, VS Code, Antigravity

Core CS: Object-Oriented Programming, Data Structures and Algorithms, Operating Systems, Computer Networks, Software Engineering

WORK EXPERIENCE

Java Full Stack Development Intern

- Developed and maintained responsive full-stack web application modules using Java, Spring Boot, HTML5, CSS3, JavaScript and MySQL.
- Built semantic HTML5 structures and modular CSS3 stylesheets for consistent, cross-browser interfaces across screen sizes.
- Connected front-end components to server-side REST APIs, handling asynchronous requests and processing JSON payloads.
- Debugged code, resolved UI inconsistencies, and followed team code-review guidelines using Git and GitHub.
- Collaborated with peers and team leads to resolve front-end tickets within defined assignment scopes.

PROJECTS

Traditional Craft Design and Marketplace Platform

Tech: *ReactJS, HTML5, CSS3, JavaScript, Python*

- Developed an interactive platform for creating and customizing traditional craft designs using parameters such as colors, patterns, motifs and traditional-modern styles.
- Designed marketplace features for artisans to showcase, list and manage their craft designs.
- Built responsive user interface templates using semantic web practices, with cross-browser compatibility.
- Implemented front-end component state management and DOM updates for real-time visual previews and user interactions.

Virtual Try-On for Online Shopping

Tech: *HTML5, CSS3, JavaScript, Python*

- Developed a responsive web-based interface for virtual product try-on, delivering real-time interactive previews.
- Implemented user profile management and dynamic product-selection features with intuitive client-side navigation.
- Designed a clean, user-friendly UI focused on cross-browser compatibility across desktop and mobile devices.

EDUCATION

Dhanalakshmi Srinivasan University, Trichy Sept 2022 – 2026

B.Tech, Computer Science with AI & Data Science | CGPA: 8.75 / 10.00

Coursework: Web Programming, Full-Stack Development, Software Engineering, DBMS, OOP Concepts, Data Structures and Algorithms, Operating Systems, Computer Networks

Bhashyam Junior College, Guntur — Higher Secondary (96%) 2020 – 2022

Gowtham Model School, Ongole — High School (99%) 2020
